Staying healthy is important for me as I am the only breadwinner in family. So, I choose only high-quality respirator masks.

I surely wear Dolce-Pharm respirator mask when I am at crowded place, hypermarkets, and in markets.

FFP3 respirator masks with 99% protection are very reliable. I give my friends and acquaintances contacts and address where they can get Dolce-Pharm respirator masks.

Dolce-Pharm masks with charcoal filter

I always buy medical masks for my family but in some masks it is hard to breathe. You feel discomfort.

At pharmacy I was offered a Dolce-Pharm charcoal filter mask with 4 hours protection against infections. Lo and behold! You wear mask but do not notice it. You can breathe free. I work in a factory. Large team with more than 200 employees.

I offered them to get charcoal filter masks and now we all wear Dolce-Pharm masks at work. When I use your medical mask, I am confident that I am safe from infections.

Our products are trusted by the President and citizens of the Republic of Kazakhstan

Dolce masks, gloves, wipes are high-quality medical devices in the first-aid kit of every family.

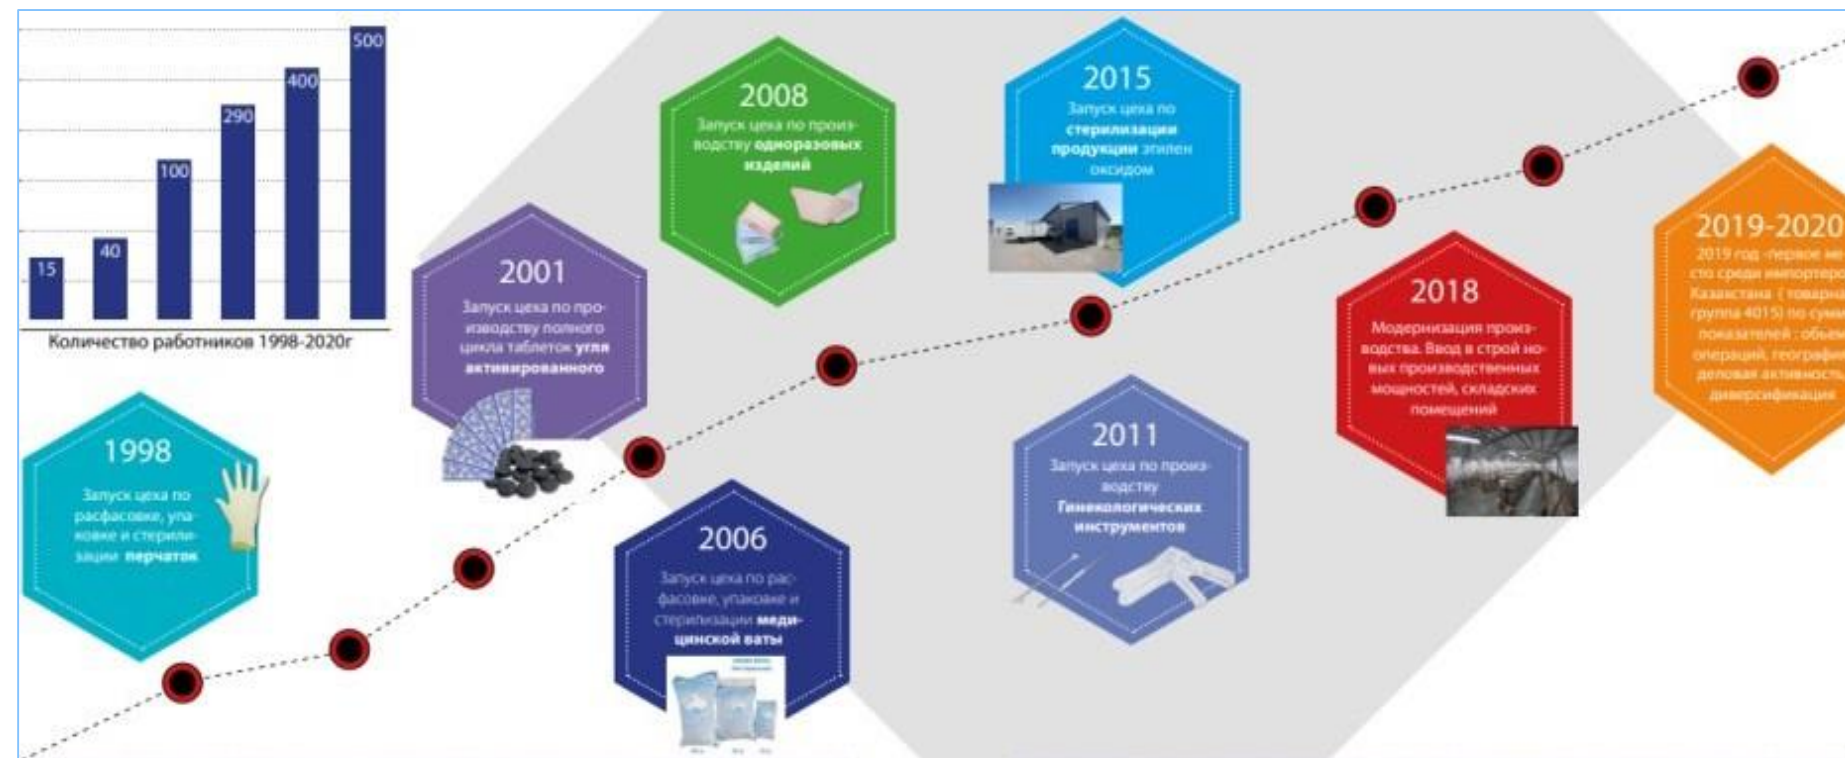

I used to buy masks for my 5-year old daughter Ksyusha, but they were huge to her and uncomfortable to use. She always wanted to take them off.

Once I bought Dolce-Pharm kids' mask. Beautiful, comfortable and kids' size.

Ksyusha liked the mask a lot and refuses to take it off. I am calm for my child when she goes out for a walk. I will surely recommend your masks to my friends with kids. Thanks to Dolce-Pharm for masks. I wish prosperity for company! We stay with you!
